Euna Solutions
Oakville, ON

Dear Hiring Representative,

Please accept my enclosed application for the Accounting Associate Co-op position at Euna Solutions. I am currently completing my Bachelors of Honours Mathematics with a Business Specialization at the University of Waterloo and bring relevant experience from multiple roles in finance and administration. I believe my strong interest and foundation in financial reporting, accounting, and analysis will allow me to be a valuable contributor to your finance team and grow within a purpose-driven organization like Euna.

Currently, I am completing my coop as both a Financial Analyst and Executive Assistant at IntraGrad, where I recently finished preparing the company's 2023-2024 balance sheet and financial statements as well as assisted with filing the corporate T2 tax. At the moment, I am working on completing a 5 year trajectory financial model based on best, worst, and mid case scenarios. I have also been analyzing weekly business metrics to track co-op student performances and operational outcomes. These responsibilities have honed my skills in Excel, data analysis, and financial documentation—aligning well with Euna's accounting co-op expectations

My past roles at Marvel Recruiters and Win-Bar Insurance exposed me to budgeting, forecasting, and accounting software (like TAMS), while enhancing my ability to work independently in fast-paced environments. I thrive in roles that require both analytical precision and initiative, and I'm particularly drawn to Euna's collaborative and impact-focused culture.

I am actively pursuing the CFA designation (Level I) and eager to expand my technical accounting knowledge through this role. I would welcome the opportunity to bring my skills and enthusiasm to your team this fall.

Thank you for taking the time to consider my application. I look forward to the opportunity to interview and further discuss how I can contribute to Euna's finance operations.

Warm regards,
Anjanie Sukhnandan
